Linda,

As discussed, the 212 pod is installed on the outside of the helicopter so burn certs are not required. Go ahead and ship the pod as scheduled.

It was just brought to my attention that we might not be able to install the D2461 seal on the pod because we can't find proof of burn testing..?? this pod is being picked up at 4 today, if it won't be ready, we need to advise the customer asap...and why is the burn test an issue today, when we have been using this seal since 1997 ???
